

Press Release

Infotech Enterprises supports Bombardier worldwide rail transportation projects

November 2, 2006: Hyderabad based Infotech Enterprises Limited (NSE: INFOTECENT) supports Bombardier, the rail industry global market leader, on the **design and deployment of some of Bombardier's worldwide rail systems like the London Underground in the UK, the Beijing airport people mover in China, and the Gautrain rail link in South Africa.**

Infotech Enterprises' engineers provide support which includes drafting, detailing, modeling and analysis of designs that are used to manufacture trains which will be used for these projects. Besides these projects, Infotech Engineers also support Bombardier on projects such as the Victoria Line Upgrade for London Underground, refurbishment projects for First Great Western trains UK, bogies for the modern Chinese Metros like Guangzhou lines 4 & 5 and propulsion for the Spanish high-speed rail products.

André Navarri, President, Bombardier Transportation, visited Infotech Enterprises today to see some of the key projects that Infotech Enterprises is executing for Bombardier. Speaking during his visit, Mr. Navarri commented, *"I'm very pleased to see Bombardier's presence in India getting stronger each day and our association with Infotech Enterprises is contributing to that, along with our excellent engineering and manufacturing site in Vadodara. We are very pleased with the work being developed so far by Infotech and they are delivering high quality work at very competitive prices which has enabled us to decrease time to market and cost while delivering highly customized products. These factors are highly critical to succeed in the rail transportation business."*

Speaking during Mr. Navarri's visit, **Mr. BVR Mohan Reddy, Chairman of Infotech Enterprises commented** *"Infotech Enterprises is working on critical projects for Bombardier. Our commitment to Bombardier has been to build a world class engineering design facility in India. I am happy that we have started working on these critical projects which is a testament to our capabilities."*

About Infotech – Bombardier relationship: Infotech Enterprises has been supporting Bombardier Transportation on engineering services projects since 2003. There are already **several hundred engineers working on Bombardier's projects in 25 locations across the globe. The Railway design centre of excellence in Infotech Enterprises has evolved into a key design support group for all Bombardier divisions worldwide. The centre is now well poised to participate in Bombardier Transportations' foray into the Indian Metro market which is on the threshold of seeing a huge investment in the coming future.**

Over the years, Bombardier Transportation has built up impressive engineering competencies at a number of centers in emerging economies around the world, including India, Thailand and China. One of Bombardier's major engineering centers is located at Infotech in Hyderabad, India. Bombardier also has a production facility at Vadodara, Gujarat that manufactures converters, electronic controls for train control and communication for three-phase propulsion technology, as well as circuit breakers and tap changers. Vadodara is also home to a Bombardier Software Development Center, which develops software for signaling and traction applications and contributes to the software requirements of Bombardier Transportation. The site is ISO 9001, ISO 14001 and OHSAS 18001 certified.

About Infotech Enterprises

Founded in 1991, Infotech Enterprises Limited (www.infotechsw.com) provides Engineering Design and Geospatial solutions to manufacturing, aerospace, transportation, telecom, utilities and government customers worldwide. Infotech currently employs over 4,500 professionals across 22 global locations and is certified to SEI CMMi Level 5, ISO 9001:2000, AS 9100 and ISO-27001 standards.

About Bombardier

A world-leading manufacturer of innovative transportation solutions, from regional aircraft and business jets to rail transportation equipment, Bombardier Inc. is a global corporation headquartered in Canada. Its revenues for the fiscal year ended Jan. 31, 2006 were \$14.7 billion US and its shares are traded on the Toronto Stock Exchange (BBD). News and information are available at www.bombardier.com.
